

LED'S MEET IN LEIPZIG.

We have moved to a new place! 2,700 m² dedicated to making the best solar simulators.

WAVELABS is now located in an old business park called "Spinnerei" (spinning works) which started operation in 1884. Back then it was all about cotton - now it is all about new companies and art (<http://www.spinnerei.de/the-heady-early-days.html>).

WAVELABS' official address is

WAVELABS Solar Metrology Systems GmbH
Spinnereistr. 7, Halle 9, 04179 Leipzig, Germany

The business park is quite large. There are several buildings. We are located in Halle 9 (building 9). It is easy to find us when you go straight to

<https://goo.gl/maps/7Ama4yGzvu5BhZUB8>

or web-search for

Alte Salzstraße 28, 04179 Leipzig, Germany

There is a large parking lot just outside WAVELABS at the corner of "Alte Salzstraße" and "Saarländer Straße". Feel free to use it. There is dedicated space for our visitors. Watch out for the WAVELABS' signs.

Parking space is reserved for you!

If you travel by public transport or if you arrive by plane at airport Leipzig/Halle, please take the train to Leipzig Hbf (Leipzig main train station). From there you can take the following connections:

		Leaves from	Get off at	Frequency	Travel time
	Tram 14 (Straßenbahn) to "Leipzig Plagwitz".	Platform 4 outside main station on the way towards city center	"Leipzig Plagwitz" (Final stop)	Every 20min	Trip takes around 22min
	Local train S 1 (S-Bahn) to "Leipzig Miltitzer Allee"	Platform 2 on underground level inside main station	"Leipzig Plagwitz"	Every 30min	Trip takes around 9min.

From station "Leipzig Plagwitz" it is a 12 min walk (900m) to our main entrance. There is still no big sign with our logo, sorry. We are working on it!

Walk from station Leipzig Plagwitz to main entrance of WAVELABS.

Watch out for our main entrance, the façade is a single carbon capture heaven. Welcome!

We are looking forward to meeting you!

Tram and local train map with main station (Hauptbahnhof) and station "Leipzig-Plagwitz" marked in orange.
