SOLAR SUPERHEROES

EPISODE 2 - PART 3

SUPERHERO FLOATING HQ, SOMEWHERE IN THE PACIFIC

PROFESSOR GREEN

IT WAS A SUBSTANTIAL VICTORY. THE OIL MONSTER HAD BEEN VANQUISHED BENEATH THE WAVES. SEALED BY LAMINATOR'S PRECISION APPLICATION OF EVA AND THEN HEATED TO ANNIHILATION.

NO TIME TO WASTE! APOLLON, DIAMOND WIRE, GET ABOARD OUR BASE. DISPERSE THE OIL SPILL.

BUT NOW OUR SOLAR SUPERHEROES MUST BAND TOGETHER TO CLEAN UP THE STICKY RESIDUE.

OK!

HOLD ON GLITTERY LADY.

MY LASER SOURCES ARE IDEAL FOR REAR-SIDE CELL ABLATION AND THERMAL CELL SEPARATION, BUT I CAN PUT THESE PUPPIES TO CLEANUP WORK.

IF YOU CAN REDUCE THE WATER'S SURFACE TENSION, THE OIL SHOULD FORM INTO DROPLETS.

NOW, SILVER MAZE, WIRE MESH, CONTAIN THE MESS!

YOUR PREVISION SILVER PASTE WILL ATTRACT THE OIL DROPLETS, WHILE MY THIN STEEL WIRES WILL FORM A MESH AROUND THE PERIMETER.

INSPECTOR VI WENT DOWN WITH THE PLANE. AND LAMINATOR! WE MUST HELP THEM.

WILL WIRE MESH PULL INSPECTOR VI FROM THE WRECKAGE?
IS LAMINATOR FINISHED? CAN THE SOLAR SUPERHEROES
TACKLE THIS NEW FOSSIL MONSTER WITHOUT THEIR LEADER?

TO BE CONTINUED ...

SOLAR SUPERHEROES

PROFESSOR GREEN IN HIS STUDY. MANY YEARS INTO THE FUTURE.

EPISODE 3 - PART 1

IT'S HARD TO IMAGINE TODAY, THAT THIS LOW POINT WAS THE BEGINNING OF SOMETHING SO POWERFUL. OUR SUPERHEROES WERE IN SHOCK. THE LAMINATOR, THE STRONGEST OF THEM ALL, WAS SINKING BENEATH THE OILY WAVES. INSPECTOR VI TRAPPED IN THE COCKPIT OF THE SOLAR PLANE. HOW FAST WE MOVED...

PROFESSOR GREEN

DIAMOND WIRE AND WIRE MESH FEARLESSLY HEAD TO THE BOWELS OF THE FLOATING HQ TO SEEK THE SOURCE OF THE GIANT BOAT'S TROUBLES.

WERE ON IT BOSS.

APOLLON'S RED AND GREEN LASERS SCAN FOR THE LAMINATOR.

WHILE IT CAN BE MICROSCOPICALLY THIN AND INCREDIBLY CONDUCTIVE, MY SILVER PASTE IS STRONGER THAN YOU MIGHT THINK.

AH, THERE SHE IS.

THESE LASERS SURE DO GUIDE THE WAY.
